

Dracaena Corn Plant

Botanical Name: Dracaena fragrans

Type: Houseplant

Height: Up to 6 feet

Light: Bright light, no direct sun

Moisture: Slightly damp, in winter slightly dry

Soil: Well-draining potting mix

Blooms: Only in natural habitat, rarely in the home

Leaves only have a 2-3 year life span, so lower leaves will begin to yellow. Repot every 2-3 years

Purifies indoor air.

Toxic to dogs and cats
