

## Dwarf Barbados Cherry

**Botanical Name:** Malpighia puniceifolia 'Nana'

**Type:** Tree

**Height:** 2 feet

**Light:** Dappled shade, part shade, full sun

**Moisture:** Regular watering

**Soil:** Well drained

**Blooms:** White, pale pink ½ inch flowers, March to December

Can be used in a pot on patio, bring inside to protect from frost.

Produces a lovely bright red fruit that is edible and high in vitamin c, but quite tart.
